

Under the aegis of the Government of the Sultanate of Oman

DEFENSE | CIVIL AVIATION | SPACE | TECHNOLOGY

24-28 SEPTEMBER 2024

SALALAH AIRPORT

Meet with the economic and political decision-makers

THE 2024'S AEROSPACE & DEFENSE EXHIBITION DEPLOYING WINGS

Scheduled from 24 to 28 September 2024 and taking place at Salalah International Airport. The International Aerospace & Defense Exhibition will deploy its wings for the first time.

The event will showcase over 200 exhibiting companies from around the world, and will host a large number of delegations and decision makers from Oman, the Middle East and Asia.

This base of companies is a part of development schemes that cover a wide range of aerospace & defense activities. So, whether you are looking to meet new buyers, to sign new deals or to present your new products, this event is for you!

Reframe the future

DEFENSE | CIVIL AVIATION | SPACE | TECHNOLOGY

24-28 SEPTEMBER 2024

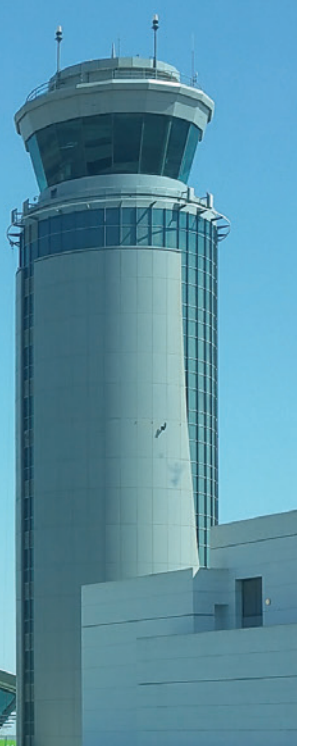

SALALAH AIRPORT

The Driving Committee includes:
Ministry of the National Defense, Ministry of the Interior, Ministry of Foreign Affairs, Ministry of Transport, Communications and Information Technology, Oman Civil Aviation Authority, Oman Airports...

Salalah Airport is one of the most promising destinations, given that its excellence geographic position and the tourism growth it usually witnesses especially during Khareef season. The airport was opened on November 11, 2015 with capacity of about two million passengers a year and that can be expanded to six million passengers. It was built with a construction of PTB floor size 65,638 m2, as it has huge potential in terms of systems, equipment and services provided therein, and can receive large aircraft types.

Salalah Airport is located 10 km from Salalah City Centre, giving it a strategic central location to the surrounding places of interest in the city. The Airport is easily reachable from the East and West of Salalah City via Ittin Road. It is accessible from the main road through the Airport flyover. The Airport is surrounded by the Ittin plain and the magnificent range of Dhofar Mountains, which turn into lush green during the monsoon, locally known as Khareef. The Salalah Festival Grounds, Concerts Amphitheatre, Lulu Shopping Mall and Salalah Gardens Mall are only some of the landmarks located near the airport.

CIVIL AVIATION

Commercial aviation and airport operations: Oman Airshow will serve as a platform to showcase innovation and new technologies for safer flight.

DEFENSE

Oman Airshow will continue to bring together the latest and most innovative military technologies and monitoring systems solution providers.

SPACE & ROBOTICS

Advancements in space and aerospace technologies will be high on the agenda at Oman Airshow. Join the discussion and be part of the future of technology.

INTERNATIONAL DEFENSE & SPACE EXHIBITION

CIVIL AVIATION

- Air traffic management
- Aircrafts: construction, assemblies and sub-assemblies
- Airline companies, business aviation, general aviation
- Artificial intelligence
- Avionics, cockpit and onboard systems
- Business management service and solutions
- Cabin equipment
- Data management systems and solutions
- Electrical, electronics, mechanical and metallurgical
- Environmental impact management
- Equipment, production tools and software
- Government institutions and foreign trade agencies
- Ground support equipment and services
- Health & safety
- Infrastructure and terminal management
- Leasing and financing services
- Light aircraft
- Maintenance Repair Overhaul
- Management and industry services
- Materials, composite and surface treatments
- Operations management
- Paints and coatings
- Passenger management
- Pavement servicing
- Propulsion, systems and engines components
- Technical installations
- Technical systems and services (airside)
- Terminal construction
- Terminal facilities
- Terminal operations
- Training
- Transmissions, communication, positioning

DEFENSE

- Amphibious Systems
- Aircrafts: construction, assemblies and sub-assemblies
- Armoured / Fighting Vehicles
- Border Security & Control
- Civil Defense Equipment & Systems
- Command, Control & Communications Systems
- Counter Terrorism & Internal State Security Systems
- Crisis & Disaster Management Systems
- Disaster Rescue & Relief Systems, Equipment & Services
- Electronic Warfare Systems
- Disaster Rescue & Relief Systems, Equipment & Services
- Explosives & Ordnance
- Field Hospital & Medical Systems
- Guided Missiles and Weapon Systems
- Field Hospital & Medical Systems
- Helicopters & Military Aircraft
- Land, Air and Sea Defense Systems
- Land, Air and Sea Surveillance Systems
- Large & Small Calibre Weapons
- Logistics & Reconnaissance Vehicles
- Naval & Air Force Platforms
- Non-Lethal Weapons
- Optics & Optronics
- Protective Gear & Equipment
- Radar Systems & Launchers
- SAR Heavy Equipment & Systems
- Safety, Survival & Rescue Systems
- Security Systems
- Special Forces Equipment
- Training & Simulation Systems
- Unmanned/Autonomous Vehicles
- Weapon Systems

SPACE & ROBOTICS

- Space transportation
- Satellite Communication
- Earth Observation
- Satellite Navigation
- Space Situational Awareness
- Space Exploration
- Space Resource utilisation
- Ground Services and infrastructures
- Geospatial technologies
- Security & Defense
- Space Robotics
- Artificial Intelligence Software
- Robotics Software / Mapping / Interactive
- Robotics Parts And Components Suppliers
- Industrial Robot Manufactures
- AUV - Autonomous Vehicle
- Engineering Services
- 3D Printing Technologies
- Humanoids Robot
- Robotics Research & Design
- Robotics Solution Providers
- Sensors & Machine Vision

Commercial aviation and Airport operations

Commercial aviation and airport operations are the lifeblood of global travel, facilitating journeys that connect people, cultures, and economies. When these dynamic sectors converge at the International Aerospace and Defense Exhibition in Oman, **the possibilities become boundless.**

Connecting the World

At Oman Airshow, commercial aviation takes center stage as the industry's latest marvels are unveiled. Airlines, manufacturers, and aviation enthusiasts converge to witness cutting-edge aircraft designs, advanced avionics, and groundbreaking technologies. The advantages are clear: airlines explore fleet upgrades, manufacturers showcase their innovations, and enthusiasts revel in the majesty of these flying machines.

Security and Innovation

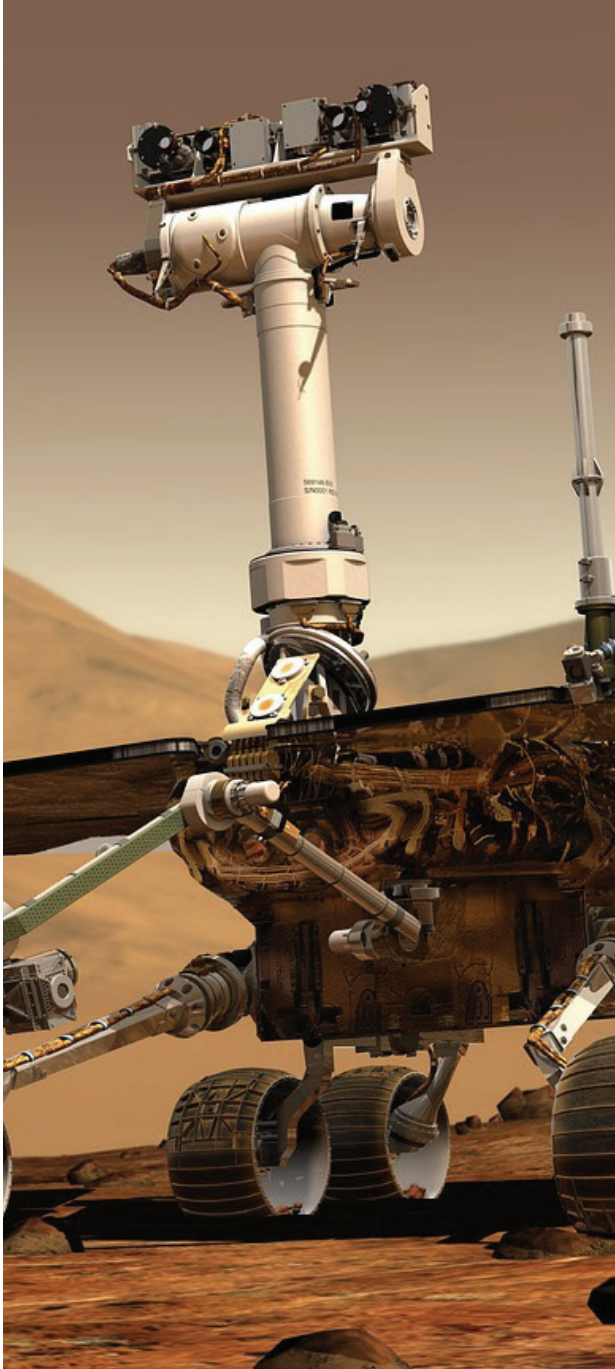

Security and innovation are paramount in airport operations, and Oman Airshow underscores these elements. Exhibitors present the latest in airport security technologies, from advanced screening systems to surveillance innovations. Additionally, the exhibition explores how smart technologies and sustainable practices are transforming airports into hubs of innovation and efficiency.

Terminal Marvels

Airport terminals are architectural wonders, and Oman Airshow showcases the latest in terminal design, passenger experience enhancements, and innovative solutions. Attendees explore the future of airport terminals, where comfort and efficiency seamlessly blend to create memorable passenger experiences.

Shaping the Future: Space, Robotics, and AI at Oman Airshow 2024

Oman Airshow 2024 is your gateway to the future of technology. It's where space exploration, robotics, AI, satellite technologies, and innovation converge to shape a world of boundless possibilities. Join the discussion, immerse yourself in exhibitions that showcase the pinnacle of human achievement, and become an active participant in shaping the trajectory of technology in these transformative fields. The future awaits, and Oman Airshow 2024 is your ticket to be a part of it.

At Oman Airshow 2024, we recognize that space, robotics, AI, and satellite technologies are driving the next wave of technological innovation. Here's why you should be a part of this transformative event:

Oman Airshow 2024 will host cutting-edge exhibitions showcasing the latest in space exploration, robotics, and AI technologies. Explore the wonders of space missions, interact with AI-driven robots, and witness how these technologies are reshaping industries.

Expert Insights

Engage in illuminating discussions led by experts in space exploration, robotics, and AI. Gain profound insights into the latest developments, challenges, and opportunities in these fields. Learn how space missions are pushing the boundaries of human exploration and how robotics and AI are transforming industries.

Networking Opportunities

Oman Airshow 2024 offers unparalleled networking opportunities. Connect with visionaries, innovators, scientists, engineers, and enthusiasts who share your passion for space, robotics, and AI. Form collaborations, share ideas, and be a part of projects that define the future.

Satellite Technologies

Discover the transformative power of satellite technologies. Explore their role in global communication, navigation, Earth observation, and disaster management. Learn how satellites are bridging connectivity gaps and providing crucial data for addressing global challenges.

Robotics in Action

Interact with robotics that showcase the state-of-the-art in automation, healthcare, manufacturing, and more. Witness the impact of robotics on industries and daily life, and explore their potential to revolutionize how we work and live.

AI Revolution

Explore the AI revolution and its applications across diverse sectors. Learn about AI-driven healthcare, autonomous vehicles, financial technologies, and more. Understand how AI is reshaping industries and improving efficiency.

Exploring Military Advancements: Drones, Military Aviation, and Defense Innovations at Oman Airshow 2024

Prepare to immerse yourself in the world of cutting-edge military technologies at Oman Airshow 2024. The International Aerospace and Defense Exhibition (IADE) is set to be a dynamic stage where the latest advancements in drones, military aviation, and land and sea defense will take center stage. Discover groundbreaking innovations, engage with experts, and witness the future of defense technology.

Advanced UAVs

At Oman Airshow 2024, cutting-edge UAVs are the stars of the show. Discover the latest in drone technology, from autonomous reconnaissance drones to armed UAVs that redefine military capabilities. Gain insights into how UAVs are shaping modern warfare and intelligence gathering.

Military Aviation

Witness the marvels of military aviation as state-of-the-art fighter jets and transport aircraft take to the skies. Explore the capabilities of advanced military aircraft, from stealth technology to supersonic speed. Learn how these aircraft enhance national security and defense.

Land Defense Systems

Delve into the world of land defense systems. Explore armored vehicles, artillery, and missile defense systems that provide a critical edge on the battlefield. Discover how technology is revolutionizing ground-based military operations.

Naval Capabilities

Experience the strength of naval capabilities. Learn about the latest naval vessels, submarines, and maritime defense systems. Understand the role of naval technology in securing coastlines and protecting maritime interests.

Oman Airshow 2024 is your gateway to the future of defense technology. It's where the latest advancements in drones, military aviation, and land and sea defense converge to shape a world of enhanced security and capabilities. Join the discussion, explore exhibitions that showcase the pinnacle of defense technology, and become an active participant in shaping the trajectory of defense innovation. The future of military advancements awaits, and Oman Airshow 2024 is your ticket to be a part of it.

STATIC & DYNAMIC DISPLAYS

Undoubtedly, the stars of the show are the flying aircraft that take centre stage to deliver an electrifying mix of displays both in the air and on the ground.

FLYING DISPLAY

A wide range of diversified aircrafts will be lighting up the skies. From vintage to fast jets and aerobatics to large commercial airliners, all of which showcase the latest in innovation and technology.

STATIC DISPLAYS

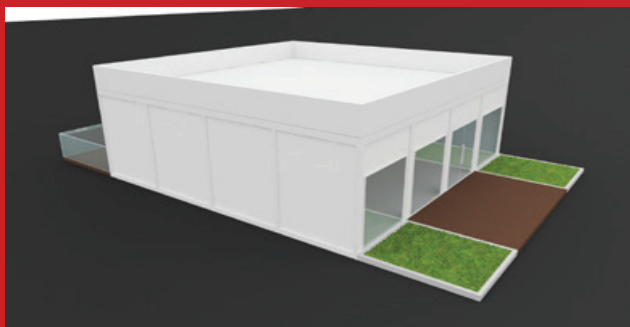

Impress visitors by showing your aircraft, vehicle or telecommunications material on the ground with the spectacular outdoor static and equipment area.

The Show provides several types of space to present your products to their best advantage and receive your customers in ideal conditions.

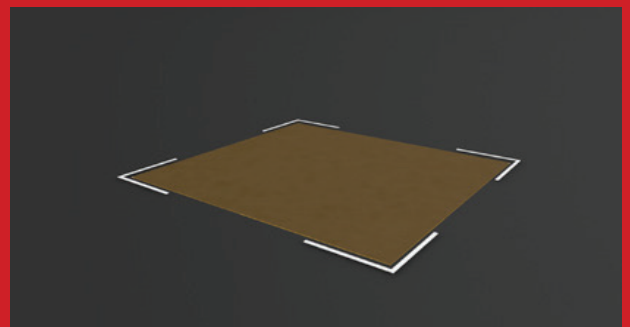

OUTDOOR EXHIBITION OPTIONS

BUSINESS CHALET

Adjacent to the static aircraft park running in parallel to the main runway, the chalets offer the perfect setting for entertaining business clients. Chalets units are sold as space only packages including: Building, kitchen and restroom fully implemented terrace.

OUTDOOR SPACE

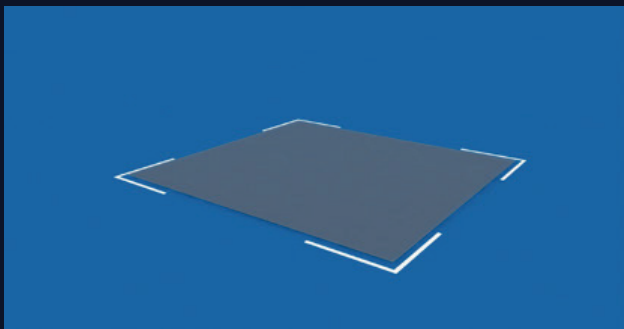

You can exhibit your Aircraft, Vehicle, Equipment, etc... on the outdoor area of the event. The organizer will position it on a dedicated area depending on its category, dimensions and weight. Pagodas are also available to welcome your teams and your clients.

Oman Airshow will provide diverse opportunities to meet international key players of the aerospace and defence industry to expand your network and to build new partnerships.

INDOOR EXHIBITION OPTIONS

SPACE ONLY

Bare area is equipped with flooring and offers the exhibitor the possibility to work with the contractor of his choice in order to fit the stand as wanted or produce his own bespoke stand.

SHELL SCHEME

The practical solution if you want a place to welcome people without having to worry about fittings (partitions, carpet, sign, etc.) with the possibility to customizing your stand.

KEY NETWORKING OPPORTUNITIES

TAKE PART IN AN RELIABLE EXCHANGE PLATFORM

Oman Airshow will provide diverse opportunities to meet international key players of the aerospace and defence industry to expand your network and to build new partnerships.

The implementation of an organised delegation visit programs will be open to all exhibitors, B2B, face to face meetings, conferences on updates in both the Aerospace and Defence sectors.

OFFICIAL DELEGATIONS

The event will see the implementation of the delegation's visit programs which is open to all exhibitors submitting their requests to meet with the delegations attending the show.

For the Oman Airshow, we shall focus on a dedicated piloting system of the official delegations to make the majority of the exhibitor's benefit from these pre-programmed visits. Our coordinating team will be contacting exhibitors before the show and during the show to manage as many requests as possible.

DELEGATIONS PROFILE

- Ambassadors representing participating countries
- Middle Eastern & Foreign Air Transport Ministers
- Chiefs of Staff of the Middle Eastern & Foreign Armed Forces
- The highest levels of government
- Directors of Middle Eastern & Foreign Civil Aviation
- Other related personalities

B2B & B2G MEETINGS

Oman Airshow will provide B2B & B2G meetings which will be professionally pre-organized during first three days.

Thanks to a pre-organized service, these meetings will be a unique opportunity to meet international key players of the aerospace & defence industries to expand your network and build new partnerships.

GET IN TOUCH WITH BUYERS AND TECHNOLOGY EXPERTS THROUGH THESE EFFICIENT FACE-TO-FACE MEETINGS AND MEET GLOBAL EXPERTS AT

Oman Airshow.

Oman Airshow allows visitors to optimize their prospecting budgets on five days of targeted professional meetings and in the same place.

You will have the opening to develop business opportunities, learn about the latest innovations in the industry and attend technical conferences on the sector updates.

CONFERENCES

A FLEXIBLE CONFERENCE PROGRAMME OPEN TO ALL

Oman Airshow will set up, with the support of its partners, an extensive program of technical conferences.

The objective is to make an inventory of the sector and to decide on its perspectives and opportunities.

The organizing committee of Oman Airshow invites all participants to take part in the conference program of the most important global event dedicated to aerospace and

defence in Middle East.

The event will give you the opportunity to put your business into the spotlight during the major encounter of Middle East and worldwide major players and decision-makers of the aerospace and defense industry. You can share your expertise with your peers and submit an abstract for the opportunity to speak at the **IADE** conference, you are invited to submit your proposal for presentation.

Oman Airshow is divided into three major zones: Civil Aviation, Defence & Space. Each zone has a seminars program dedicated to the challenges of that particular domain, running a series of panels throughout the first three days of the show.

GENERAL PUBLIC DAYS

The visitors attending Oman Airshow during the 2 last days will have the opportunity to see various static, flying displays performed by experienced, talented pilots.

IADE in collaboration with all the partners, is providing all the facilities available to welcome the visitors.

A flying display programme especially planned for trade and general public. A range of aircrafts will offer to visitors the highest quality show,

General public area set up next to the runway allowing visitors to admire the spectacular moments of the flying display,

Official souvenir shops located at the heart of the exhibition, A complete plan of action drawn up to welcome general public: signage, show maps, restaurants, etc.
